SUBJECT: Changes in Production Lot of Coreboard Destructors

REF : Memorandum from Technical Services Division, dated 18 March 1964

This will confirm the conversation of 24 March between
Mr. [REDACTED], OC regarding changes pro-
posed by Technical Services Division in the production lot of
450 coreboard destructors. Since the manufacturer can incor-
porate the changes without a delay in production and the changes
will improve the reliability and storage characteristics of the
ignition system, we concur with the changes.
